Ambulances for conveying destitute sick persons.

Statistics are not furnished to show whether there is any great necessity for providing conveyances of the kind required at a cost of Rs 4 50 each. The Police order in force in the Station corresponds to Police order No. 71 of the Madras Police, & requires the keeping of one or two stretchers at Police Stations. A conveyance of the kind proposed is too costly for the Police requirements, & there is no provision in the current year's or the next year's Police budget for meeting the charge. If the public or the Municipality be willing to supply the ambulances of the kind now proposed, the gift may be accepted, but ~~the Govt~~ Govt may not consider such conveyances the necessary ones even the supply from them the cost of such vehicles.

3. I am inclined to think that this proposal is a little ambitious. It is all very well for a hospital than an absolutely up to date ambulance as cases of sick persons being moved then are of more a less regular occurrence, but I feel doubtful as to whether we shd spend 450/- on motor ambulances for police stations. Two points occur. (1) Do they use such ambulances at police stations in Madras & Bombay (2) what kind of stretchers are now supplied to the police under the rules. It is no doubt an excellent thing to have an ambulance & the purchase of some such will no doubt be of utility but if it is found necessary for one or two police stations it might be urged that all should have them. We could doubtless purchase one out of next years police budget, but I should have thought that serviceable stretchers could be supplied to all the police stations for 450/-.

Ambulance carts have been provided for conveyance of patients to the hospitals. It is now proposed to secure 3 ambulance carts to take patients suffering from small pox etc to the Isolation Hospital at a cost of Rs 350/- a cart. The Commissioners have resolved to meet the cost, Rs 1050, from the Vaccination grant of Rs 5000/- from which money is available for the purpose.

The proposal might be sanctioned. Draft letter for approval.

I don't know whether the Rapid Surgery owned recommend the 3 plague carts to be used for other diseases. e.g. small pox, cholera etc. & vice versa. If he does, then I concur as the special carts required to meet this objection are unwarranted. But if I remember right Dr Johnston was present at the Standing Committee meeting when these 3 special cart were recommended. Moreover if the 3 ambulances belong to the Plague dept the Municipal Health Office will have no right to ask for the use them.

P. B. Warburton, Esquire, I. C. S.,
First Assistant to the Honourable the Resident in Mysore.

SIR,

I have the honor to bring to your notice the urgent necessity of providing proper ambulances in the Station for the conveyance of people, who are sick or have met with an accident to a hospital.

2. I consider it essential that for a large Station like Bangalore, there should at least be four ambulances one at the Bowring and Lady Curzon Hospitals, another at the Fraser Town Dispensary or at the Cleveland Town Police Station, third at Shoolay Hospital or at the Police Station, and the fourth in Ulsoor.

3. It is understood that an ambulance is now being made at a cost of Rs. 450/- for use in the Lady Curzon and Bowring Hospitals from public subscriptions and the Municipal is prepared to meet the cost of another ambulance provided two more ambulances are purchased at the cost of Government.

4. Mr. Gover has sent his letter on the subject and in forwarding it, I strongly recommend the purchase of two ambulances from Police Budget, as it is primarily a Police charge.

To

P.R. Warburton, Esqr., I.C.S.,
First Assistant to the Hon'ble
the Resident in Mysore, Bangalore.

Through The District Magistrate, C & M Station, Bangalore.

Sir,

I have the honour to state that the want of ambulance in the Station is a great need and requires to be supplied at a early date.

2. Police order No. 56 lays down that "destitute persons found dying of disease or starvation in the streets and public roads, and abandoned infants should at once be taken to the Bowring Civil or the Lady Curzon Hospital....." the note to that order prescribes that "one or two stretchers must be kept at police stations, to be available, if needed, for the conveyance to hospital of any very sick or much injured persons.

3. From these it is evident that ambulances are very necessary, especially in the case of persons injured and as their conveyance is a duty resting with the police, I am inclined to think that the cost of providing them is but a right charge on the police department.

4. The District Magistrate has arranged with the Residency Surgeon for a course of lectures on "First aid" to be delivered at the Bowring Civil Hospital and I have, on his

S. 22.—R. F. B.—9-1911.—6,000.

suggestion, ordered all my Sub-Inspectors and English-knowing Head Constables to attend the lectures in order that they may render efficient aid to the injured in any accident.

5. The cost of an up-to-date ambulance is understood to be Rs. 450/- and the President of the Municipal Commission informs me that he is prepared to recommend to the Commission that they provide an ambulance, provided the Bowring Civil Hospital and the Police arrange to give one ambulance each. The cost is high, but as there is an endeavour to supply the station with upto-date ambulances and as the scheme is likely to fall through unless the Police Department can come to the aid, I recommend the expenditure.

6. In the current year's police budget there are no savings to meet this expenditure, nor can I see any chance of making any saving in the future therefor. Would you kindly allow me to submit ~~a supplement~~ a supplemental budget for 1912-13 for the purpose or to make provision in the following year's budget?

I have the honour to be,

Sir,

Your most obedient servant,

District Superintendent of Police.

Process Service.

55. (*a*) All criminal processes and those under Act V of 1861 issued by magistrates shall ordinarily be served by the police; the procedure regarding the service of summons and execution of warrants is laid down in the Code of Criminal Procedure, sections 68 to 86.

(NOTE.)—The police must also accept and serve summonses issued to witnesses from a magistrate's court when the summonses are signed by the chief ministerial officer of the magistrate's establishment instead of by the magistrate himself.

(*b*) It is not the duty of the police to deliver certificates issued by magistrates for the refund of fines to parties, nor should they be sent with parties who have been fined to their villages for the purpose of receiving the fine or bringing the parties back, if the fine be not forthcoming. The law requires that the person fined should produce the fine himself directly the sentence is passed.

(*c*) A register of processes will be kept at all head stations.

(*d*) When a process is received at the station, it will be entered in the register of the station where first received only. The words "Registered No. at station" will then be written across the face of the process to obviate mistakes and double registration.

(*e*) All *unexecuted* warrants and *unserved* summonses of one week must appear in red ink in the next, and all following weeks' entries, till they are executed, when they will disappear from the register.

If the person wanted absconds, 10 or 15 days at the most being sufficient to ascertain this, a proclamation for him should be applied for under section 87, Criminal Procedure Code.

AID TO DESTITUTE PERSONS.

56. Destitute persons found dying of disease or starvation in the streets and public roads, and abandoned infants should at once be taken to the Bowring Civil or the Lady Curzon Hospital. If admittance be refused there, they must be taken to the magistrate's office and the case fully stated to enable him to issue instructions; he will give orders in respect to their admission into

any existing institution. All destitute sick Europeans, unconnected with the Army and having no friends at hand to take charge of them, should always be taken to the Bowring Civil or the Lady Curzon Hospital.

NOTE.—One or two stretchers must be kept at police stations to be available, if needed, for the conveyance to hospital of any very sick or much injured persons. Such persons should never be made to sit upright, as must be done if they are placed in a small carriage.

Escort.

(a) In the Civil and Military Station.

57. 1. Escort work of every description whether from one station to another or to and from jail will invariably be done by day light, never after dark without special permission of an Inspector.

2. All prisoners, whether on remand or convicted, will be escorted from court to jail or from jail to court under a proper guard in charge of a Head constable.

3. Every guard escorting prisoners to or from jail will have a chalan on which will be noted the rank and numbers of the guard, the orders given to the guard, and the hour the prisoners leave jail and arrive at court, and *vice versa*.

4. The Jail Officer sending or receiving prisoners will be asked to note the hour prisoners are sent from or received into jail.

(b) Outside the Civil and Military Station.

Escorts in charge of prisoners or treasure coming from the Bombay Presidency will be relieved at Harihar. On receipt of intimation from the officer in charge of the escort, the Sub-Inspector of Police, Arsikere, in communication with the Superintendent of Police, will at once arrange for the necessary relief.

Similarly, escorts in charge of prisoners proceeding towards Bombay will be relieved at Ranibennur, in the case of one or two prisoners, or if more, at Dharwar.

Escorts in charge of treasure leaving Bangalore for Bombay *via* Guntakal will be relieved at Hindupur. On receipt of intimation, the District Superintendent of Police, Anantapur, will arrange for the necessary relief.
